

Inspired by my grandfather Joseph Mesnick. After emigrating in 1914 from Poland, he became a Kosher butcher in Brooklyn, NY. His memory holds a special place in my heart. I remember childhood visits to his butcher shop, the white marble counters, butcher-boards and slicers, the paper-wrapped orders prepared right in front of my eyes. Our philosophy is inspired by proprietors such as my Grandfather.

Enjoy!
Ilan Rosenberg

PHILOSOPHIA

It is our mission to find the most unique wines in all the world so that we may offer them to our guests. We store these wines in a climate-controlled cellar at 13 degrees Celsius. We are proud to serve these wines by the bottle, glass, half glass and taste. We attempt to emulate the enotecas of Italia, where the wine bar is ubiquitous. We also focus our efforts on a wine list that surpasses the typical spectrum of quality and range.

13 celsius exists within a 1920s era Mediterranean-style building located in a lesser known corner of Midtown, Houston, TX. This structure was originally conceived as Jennings Cleaners and Dyeing Shoppe. It operated as such until 2004. 13 celsius employs some elements of Jennings Cleaners, such as the original, entirely intact pressed tin ceiling and an open-air courtyard created by the building's own volition when a portion of the roof fell in and left us, frankly, with little recourse. To this storied building we added a 40-foot bar of antiqued white Carrera marble and furnished the surrounding space with tables and chairs sourced from the iconic Warwick Hotel, which closed in 2005.

We maintain an antique deli cooler stocked with cured meats, salumi and cheeses from all around the world. We host a large and varied selection of beers and ciders, Port, Madeira, Sherry, Vermouth and other libations in addition to wine. A selection of panini is available as well as several dessert options, including handmade truffles and a s'mores service.

We often host wine tastings and wine classes dedicated to specific regions of wine culture and style. We are also able to accommodate groups for tastings and events. Please inquire at info@13celsius.com if you'd like to set up a tasting or event or if you'd like to set a reservation.

Please enjoy the space, the wine, the charcuterie and the company of your friends. We will always do anything we can to make your experience as wonderful as possible.

Cheers!

SHERRY AKA JEREZ

The fortified wines of Andalucía, Spain, cultivated on chalky white stone, have been made as a meticulous result of blending various barrels of fermented juice for years to achieve a consistent style. The creation of a single glass of sherry is extremely complex and voluminous, but when done properly the result is beautiful. These wines are listed from light and dry to sweet and syrupy.

The Coravin Wine System uses an extremely thin needle to penetrate a cork, then eases a stream of Argon gas into the bottle thus displacing any Oxygen and thereby creating an environment inside the bottle that is essentially untouched by the outside. Wine may be stored using this method for months, perhaps years.

-Please note, due to the high cost and extreme rarity of many of these wines we cannot permit sampling or gratis pours.

Thank you for your understanding and cooperation and please take this opportunity to treat yourself to something truly remarkable.

SPARKLING BY THE BOTTLE

BOTTLE

TRUE CHAMPAGNE

The greatest sparkling wine region in the world, located in Champagne, France, that diligently follows a vigorous routine of production, specifically including a secondary fermentation in the bottle by adding a mixture of yeast and sugar to achieve the finest never ending flurry of bubbles in the glass. These wines have been associated with nobility and celebration for centuries.

BIERKULTUR

We like simplicity and high quality when it comes to the fermented beverages we offer at 13. Beer is made by combining Grain (usually barley), Hops and Water with Yeast. It really doesn't get much simpler than that. Lately, it's become much easier to find quality beer due to the emergence of the craft beer culture. Below is a list of the beers we like best, ranging in style and complexity.
