

Inspired by my grandfather Joseph Mesnick. After emigrating in 1914 from Poland, he became a Kosher butcher in Brooklyn, NY. His memory holds a special place in my heart. I remember childhood visits to his butcher shop, the white marble counters, butcher-boards and slicers, the paper-wrapped orders prepared right in front of my eyes. Our philosophy is inspired by proprietors such as my Grandfather.

Enjoy!
Ilan Rosenberg

PHILOSOPHIA

At 13, it is our mission to select wines of unique character and superior quality from all over the world. We store these wines in a climate-controlled cellar at 13 degrees celsius and serve them to our patrons by the bottle, glass, half-glass and taste. Because it is of supreme importance that wines from our cellar enter the patron's glass in the purest and most unadulterated fashion possible, we take great care to ensure our bottles remain untouched, unmoved and unaltered by any agent. Our goal is to not only emulate the wine bars and enotecas of Europe, but to surpass them in quality and range of selection. 13 is housed in a 1920s era Mediterranean-style building in an often forgotten portion of Midtown in Houston, Texas. The building was originally constructed as Jennings's Cleaners and Dyeing Shoppe and operated as such until 2004. Rather than raze this aging structure and build anew, we chose to harness the underlying beauty of its original character by preserving key components to the space such as an entirely intact pressed tin ceiling and an open-air courtyard created (by the building's own volition) when a portion of the roof fell. We built a 40-foot bar of antiqued white Carrera marble and furnished the space with furniture salvaged from an historic Houston institution, the Warwick Hotel. We complement our wines with a dynamic cheese and charcuterie program, fill empty bellies with impressive panini and satisfy a sweet tooth with handmade truffles. We also cultivate an aggressive hops and water program with over 30 bottled beers and a continually rotating draught selection highlighting seasonal and miniscule production brews. We design wine flights, host wine tastings and make our entire collection available for retail purchase. We also partner with outstanding local chefs to create wine-centric dinners and special events throughout the year.

Thank you for coming to 13 celsius. We hope you found a wonderful glass of wine and maybe discovered something new. Please know that we are always happy to answer any questions relating to our selection of wine and beer and will readily pour a sample of just about everything we have in our inventory. If you would like to know a little more about us please visit our website (www.13celsius.com) to sign up for our newsletter. You can also find us on Facebook and Twitter (@13celsius). If you would like to learn a bit more about how and why 13 celsius exists please take a look below at our Mission Statement. Thank you for your patronage and support.

Salute!

THERE WILL BE SULFITES IN YOUR WINE

The following is a list of wines that have been intentionally manipulated with the hands of man to produce something different. It has been the choice of the winemaker to create something new out of something old. Some of these offerings have gone through the process of fortification, aromatization, intentionally heated, left to rot, or kept in a barrel for decades to slowly oxidize. The products, when successful, have turned the average conception of wine, into a new enjoyable version to be sipped or savored before dinner or after a hearty meal. These libations can be sweet or dry, light or syrupy, bitter or floral. Please ask your bartender for their favorite recommendation.

AROMATIZED AND FORTIFIED

3 OZ BOTTLE

AROMATIZED (3 oz pour)
Wines flavored with many botanicals such as quinquina, gentian root, herbs, peels, and spices.

- Rinomato Spritz** served with prosecco 9
- Lillet Blanc, France** served on the rocks with an orange slice 8
- Lillet Rosé, France** served on the rocks with an orange slice 8
- Lillet Rouge Spritz** served with prosecco and an orange slice 8

VERMOUTH (3 oz pour)
produced for medicinal purposes since the 18th century in Italy. neutral wine infused with alcohol and botanicals, and then sweetened.

- Carpano Antica, Italia** served on the rocks 10

SHERRY AKA JEREZ

The fortified wines of Andalucía, Spain, cultivated on chalky white stone, have been made as a meticulous result of blending various barrels of fermented juice for years to achieve a consistent style. The creation of a single glass of sherry is extremely complex and voluminous, but when done properly the result is beautiful. These wines are listed from light and dry to sweet and syrupy.

SWEET AND STICKY

(3 oz pour)
These wines have been sweetened with sugar, intentionally concentrated through the process of botrytis, harvested late, or hung to shrivel in a well ventilated attic.

PORT (3 oz pour)
wines fortified by neutral spirit

5\$ OFF BOTTLES TO GO

The Coravin Wine System uses an extremely thin needle to penetrate a cork, then eases a stream of Argon gas into the bottle thus displacing any Oxygen and thereby creating an environment inside the bottle that is essentially untouched by the outside. Wine may be stored using this method for months, perhaps years.

-Please note, due to the high cost and extreme rarity of many of these wines we cannot permit sampling or gratis pours.

Thank you for your understanding and cooperation and please take this opportunity to treat yourself to something truly remarkable.

SPARKLING BY THE BOTTLE

BOTTLE

TRUE CHAMPAGNE

The greatest sparkling wine region in the world, located in Champagne, France, that diligently follows a vigorous routine of production, specifically including a secondary fermentation in the bottle by adding a mixture of yeast and sugar to achieve the finest never ending flurry of bubbles in the glass. These wines have been associated with nobility and celebration for centuries.

BIERKULTUR

We like simplicity and high quality when it comes to the fermented beverages we offer at 13. Beer is made by combining Grain (usually barley), Hops and Water with Yeast. It really doesn't get much simpler than that. Lately, it's become much easier to find quality beer due to the emergence of the craft beer culture. Below is a list of the beers we like best, ranging in style and complexity.
